2022

Vuonna 1970 perustettu BBS on yksi kaikkien aikojen legendaarisimmista vannevalmistajista. Tänä päivänä BBS:n valikoimassa on urheiluhenkisiä ja laadukkaita vanteita niin kilpailukäyttöön kuin jokapäiväiseen ajoon - sekä kaikkea siltä väliltä. Katso lisää 3D webshopista.

Flow form (Hybrid Forged™) on edistynyt valmistustekniikka, jonka avulla vanteesta saadaan kevyempi ja kestävämpi kuin perinteisellä valumenetelmällä. Prosessissa vannekehä lämmitetään ja venytetään muotoonsa. Lopputuloksena vanne on kevyempi, vahvempi ja kestää iskuja paremmin.

Forged eli takoaumiinivanteet valmistetaan samasta materiaalista, jota käytetään mm. lentokoneiteollisuudessa. Vanne koneistetaan yhdestä palasta ja koska vanteen lämpötila ei muutu valmistusprosessin aikana se säilyttää kaikki ominaisuutensa. Forged vanteet valmistetaan yleensä ajoneuvokohtaisesti ja ne ovat äärimmäisen kevyitä ja kestäviä.

En passion för motorsport och jakten på perfektion, det är den gemensamma nämnaren som omger berättelsen om BBS. Den 3 staviga akronymen växte snabbt efter att företaget grundades 1970, till att bli det mest eftersökta av förare på bana och gata runt om i världen.

Flow form (Hybrid Forged™) används i allt större utsträckning. Vinsterna är en lättare och mer uthållig följ. Följbanan hettas upp och pressas ut i rätt form och bredd med hjälp av stålvalsar. Resultatet är en starkare och lättare följ med tunnare gods jämfört med en konventionellt gjuten följ.

Forged för att skapa det optimala förhållandet mellan, vikt, styrka och uthållighet, smids följerna i aerospace aluminium, vilket i grunden är utvecklat för flygindustrin. Med avancerade CNC-maskiner och datasimuleringar bearbetas den råa metallen och den färdiga designen skapas. Frånvaron av gjutning eller upphettning i processen, bibehåller den molekylära strukturen i aluminiumet vilket gör följerna oerhört lätt, oerhört stark och oerhört uthållig.

Vuonna 2016 lanseerattiin Rautamon oma R-Series mallisarja. Se sisältää tyylikkäitä ja laadukkaita vanteita henkilö-, SUV- ja maastoautoihin. Mallit edustavat nykypäivän trendejä ja hyvää hinta-/laatusuhdetta.

Flow form (Hybrid Forged™) on edistynyt valmistustekniikka, jonka avulla vanteesta saadaan kevyempi ja kestävämpi kuin perinteisellä valumenetelmällä. Prosessissa vannekehä lämmitetään ja venytetään muotoonsa. Lopputuloksena vanne on kevyempi, vahvempi ja kestää iskuja paremmin.

R-Series introducerades 2016 för att flytta fram positionen ytterligare. Rautamo Wheel Fashion står för kvalitet och design, R-Series är en direkt spegling av det. Design och kvalitet för den moderna föraren som vill visa att man ligger långt fram. Finns idag till personbil, SUV och Offroad 4x4.

Flow form (Hybrid Forged™) används i allt större utsträckning. Vinsterna är en lättare och mer uthållig fälg. Fälgbanan hettas upp och pressas ut i rätt form och bredd med hjälp av stålvalsar. Resultatet är en starkare och lättare fälg med tunnare gods jämfört med en konventionellt gjuten fälg.

VERTINI STANCE

Vertini/Stance vannemallisto tarjoaa tyylikkää tuning vanteita, jonka helmet olemme poimineet omaan mallistoomme. Mallistossa on Flow Forming vanteita sekä perinteisellä menetelmällä valmistettuja vanteita.

Flow form (Hybrid Forged™) on edistynyt valmistustekniikka, jonka avulla vanteesta saadaan kevyempi ja kestävämpi kuin perinteisellä valumenetelmällä. Prosessissa vannekehä lämmitetään ja venytetään muotoonsa. Lopputuloksena vanne on kevyempi, vahvempi ja kestää iskuja paremmin.

Vertini/Stance erbjuder exklusiv individuell styling. Modigare, mer spännande applikationer för att stå ut ur mängden. Besitter en stark drivkraft att ligga främst i design och kvalitet.

Flow form (Hybrid Forged™) används i allt större utsträckning. Vinsterna är en lättare och mer uthållig följ. Följbanan hettas upp och pressas ut i rätt form och bredd med hjälp av stålvalsar. Resultatet är en starkare och lättare följ med tunnare gods jämfört med en konventionellt gjuten följ.

RAUTAMO MOTORSPORT WHEELS

All these Rautamo racing wheels are in ALSI7 MG + heat treatment in low pressure technology.

All these racing wheels have the steel insert (cone 60°) inside on the holes, to ensure the best fixing between bolts and wheels.

VOSSEN

Vossen on ansaitusti vakiinnuttanut paikkansa vannealan huipulla. Pysyäkseen siellä Vossen kehittää mallistoaan jatkuvasti ja tekee yhteistyötä suurimpien tuningyriyten kanssa, kuten ABT, Renntech, Roush ja Novitec. Esimerkiksi Vossen NV-2 malli on kehitetty erityisesti Teslaan yhteistyössä Novitecin kanssa. Hybrid Forged™ (HF) -sarja on yhdistelmä CV-sarjaa ja forged-vanteita. HF-sarjan vanteet ovat kevyempiä ja kestävämpiä kuin CV-sarja Flow Forming valmistusmenetelmän ansiosta. Alkuperäisillä Vossen-vanteilla on viiden vuoden takuu työn laadulle sekä elinikäinen rakenteellinen materiaalitakuu.

Vossen Wheels placing i toppen av branschen har cementerats. Tack vare deras approach och öppenhet till sina kunder, leder man i dag utvecklingen i alla segment man verkar i. Med stor passion och fokus på att skapa den perfekta produkten i kombination med den globala plattformen i sociala medier gör att man idag har en unik position world wide. Vossen är mer än en produkt, viljan och visionen att engagera sina fans har satt en ny standard i branschen. Endast Vossen original erbjuder livstids strukturell materialgaranti. Hybrid Forged Series (HF) är bryggan mellan de befintliga CV-Series och Forged Series. HF-Series är lättare, mer uthållig och starkare än CV-Series.
